

## Field Robotics Engineer

Do you want to build technology for something real and meaningful? Do you want to fight to make the world's fresh produce healthier, tastier, and more sustainable?

As a Field Robotics Engineer at Neupeak, you'll be core to the development of our robotic strawberry harvesting system. You'll be developing world-leading, fully autonomous swarm of robots in some of the most interesting and challenging environment of outdoor fields. You'll lead the R&D that will drive tangible value for growers and end consumers of fresh produce.

As a core part of our engineering team at Neupeak, you'll be fundamental to our success, growth, and culture. You'll bring experience and a passion for our mission while also thriving in a fast-paced, flexible, and energized startup environment. You're excited to grow your role and ability to make an impact as Neupeak grows.

What you will do:

- Work in tandem with our fast-paced engineering team to identify and solve issues during field operations of the robot fleet
- Comfort with rapid multi-disciplinary problem solving that span across software, hardware, operations and controls
- Transfer research output into production software systems
- Development and assembly of mechanical, electrical and optical components
- Building high quality processes for field maintenance and support
- Shape the role of future hires and deployments

What we're looking for:

- Required: B.S. Engineering or other relevant degree with exposure to a variety of engineering disciplines
- Required: Intermediate Python, C++ programming, prior machine shop experience
- Preferred: Prior startup experience
- Preferred: Prior practical experience in robotics, ROS, field equipment maintenance

Benefits:

- Meaningful equity potential in one of the fastest growing spaces in automation
- Limitless career upside – a chance to build your own dream team to solve an endless supply of incredibly challenging and rewarding technical problems. You grow as we grow.
- Competitive salary
- A chance to transform agriculture and improve lives of millions of farmworkers
- All you can eat fresh strawberries (and we mean fresh)
